## MODERN COLLABORATION MEETS ETERNAL INSPIRATION

Arts collaboration is essential for fostering innovation, diversity, and community engagement. By bringing together artists, organizations, and creative minds from different backgrounds, collaboration sparks new ideas, expands artistic possibilities, and enriches cultural experiences. It allows for resource-sharing, skill-building, and cross-disciplinary experimentation, leading to more impactful and inclusive projects. Through collaboration, the arts become a powerful force for connection and storytelling, inspiring both creators and audiences alike.

## YOU CAN MAKE A DIFFERENCE

Individual contributed support is vital to the sustainability and growth of arts organizations. Donations help fund performances, exhibitions, educational programs, and community outreach, making the arts more accessible to diverse audiences. This support empowers artists, nurtures emerging talent, and preserves cultural heritage while fostering innovation and creative expression. Beyond financial impact, individual donors play a key role in advocating for the arts, ensuring they continue to inspire, educate, and connect communities for generations to come. Help us fulfil our missions and fill a valuable role in our communities by making a donation today.

**THE DENVER BRASS**, presenting brass music of national and international renown, was formed in 1981 by Kathleen and Charles Brantigan. The organization was built on a vision of a one-of-a-kind professional chamber ensemble that would be at the forefront of brass performance, entertainment, original commissions, education, and community service. Unique in the world, Denver Brass has set itself apart through its sound, original repertoire, and state-of-the-art multi-cultural show productions.

The elements of The Brass' trademark sound include more than 13 distinct instruments—including an array of rarely-used trumpets in various pitches—and the exceptional technical and expressive expertise of some of the nation's finest brass musicians. Together they produce a rainbow of timbre: not a band, not an orchestra, but an entirely new phenomenon. Exploration of fusions of music from diverse cultures and electronic and digital technology is central to groundbreaking artistic development. Today's Denver Brass is heard live by more than 30,000 persons at more than 150 season series, community, and educational events annually, as well as on popular social media platforms and 30+ acclaimed recordings.
